New Source Review newspaper advertisements for construction permit applications, December 26, 2008. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications were published on one of the following dates: December 15, December 25, December 26, 2008, or January 1, 2009. Public notices are generally published every two weeks. The previous publication of public notices was December 11, 2008.

PUBLIC NOTICE

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction and/or modification of air contaminant sources as noted below. The proposed construction and/or modification is subject to part 1200-3-9-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mr. Barry R. Stephens, Director, Division of Air Pollution Control, 9th Floor, L & C Annex, 401 Church Street, Nashville, Tennessee 37243-1531 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 12th Floor, 401 Church Street, Nashville, TN 37243, 1-866-253-5827. Hearing impaired callers may use the Tennessee Relay Service, 1-(800)-848-0298.

The applicant is <u>Contech U.S., LLC</u> with a mailing address of <u>901 Alfred Thun Road, Clarksville, TN 37040</u>. They seek to obtain an air contaminant permit (Division identification number: 63-0164-06/62479) for construction of a <u>Shotblast Operation</u> located at <u>the same address</u>. This proposed operation would consist of <u>cabinet shotblast unit</u> used to deburr aluminum cast automobile parts. A dust collector would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Ms. E. Peeler is the assigned Division person.

For the Montgomery County *Leaf-Chronicle* – published once on Monday, December 15, 2008.

The applicant is <u>Ripley Power and Light Company</u> with a mailing address of <u>150 South Main, P.O. Box 69, Ripley, TN 38063</u>. They seek to obtain an air contaminant permit (Division identification number: <u>49-0086-01/62500</u>) for modification of <u>three existing diesel engines</u> at <u>162 Vair Road, Ripley, TN 38063</u>. The proposed operation would consist of three, 3282 horsepower, each diesel engines with 2000 KW electric power generator to provide back-up and emergency power to the city of Ripley, Tennessee. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants would be emitted by this source. Mr. M. Yousefzadeh is the assigned Division person.

For the Lauderdale County Enterprise -- published once on or before Friday, December 26, 2008.

The applicant is <u>Weigel's #42</u>, with a mailing address of <u>P.O. Box 650</u>, <u>Powell, TN 37849</u>. They seek to obtain an air contaminant permit (Division identification number: <u>53-0126-01/62503</u>) for modification of an existing <u>Gasoline Dispensing Facility</u> located at <u>310 Highway 95</u>, <u>Lenoir City, TN 37771</u>. This existing operation consists of three gasoline storage tanks and associated gasoline dispensing equipment. The requested modification is to increase the maximum monthly throughput and to add two gasoline dispensers. Stage I gasoline vapor recovery is used for pollution control. There would be physical construction. Regulated air contaminants are emitted by this source. Ms. Hymelia Craig is the assigned Division person.

1

For the Loudon County News-Herald -- published once on or before Friday, December 26, 2008.

The applicant is <u>Block USA Mid-South Division</u> with a mailing address of <u>P.O. Box 101868</u>, <u>Birmingham</u>, <u>AL 35210</u>. They seek to obtain an air contaminant permit (Division identification number: <u>57-0342-01/62509</u>) for a <u>Concrete Block Operation</u> located at <u>327 Fiberglass Road</u>, <u>Jackson</u>, <u>TN 38301</u>. This existing operation consists of stockpiles of gravel, crushed rock, and sand; a cement silo, a mixer, an electric-heated oven, and associated equipment used to produce concrete block. A baghouse is used for pollution control. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. E. King is the assigned Division person.

For the Madison County Jackson Sun-Daily -- published once on or before Friday, December 26, 2008.

The applicant is <u>Valmont Newmark</u> with a mailing address of <u>1950 Industrial Blvd</u>, <u>Jasper</u>, <u>TN 37347</u>. They seek to obtain an air contaminant permit (Division identification number: <u>58-0090-02/62394</u>) for construction of a proposed <u>Plasma Cutting Torch</u> located <u>at 1950 Industrial Blvd</u>, <u>Jasper</u>, <u>TN 37347</u>. This proposed operation would consist of a plasma cutting torch and associated equipment used to drill holes in poles. A <u>cartridge filter system</u> would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. Doug Wright is the assigned Division person.

For the Marion County *Hustler* -- published once on or before Thursday, December 25, 2008.

The applicant is Occidental Chemical Corporation with a mailing address of 970 New Highway 7, Columbia, TN 38401. They seek to obtain an air contaminant permit (Division identification number: 60-0013-27/62431) for modification of a Ferrophosphorus Crushing Operation located at the same address. This existing operation consists of a jaw crusher and associated equipment used to reduce the size of mined ferrophosphorus. Wet suppression is used for pollution control. The requested modification is for the removal of hours of operation restriction from their current operating permit. There would not be physical construction. Regulated air contaminants are emitted by this source. Mr. J. Fuss is the assigned Division person.

For the Maury County *Daily Herald* -- published once on or before Friday, December 26, 2008.

The applicant is <u>Hollingsworth Oil Company</u>, <u>Inc.</u> with a mailing address of <u>1503 Memorial Blvd.</u>, <u>Springfield</u>, <u>TN 37188</u>. They seek to obtain an air contaminant permit (Division identification number: <u>74-0165-01/62493</u>) for construction of a <u>Gasoline Dispensing Facility</u> located at <u>3051 Highway 31-West</u>, <u>White House</u>, <u>TN 37188</u>. This proposed operation would consist of three (2) underground tanks and eight (8) gasoline nozzles. A Stage I vapor recovery would be used for gasoline emission control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. W. Collins is the assigned Division person.

For the Robertson County Times -- published once on or before Friday, December 26, 2008.

The applicant is <u>Rocky Point Rock Quarry</u> with a mailing address of <u>1149 Ross Creek Road</u>, <u>Clifton</u>, <u>TN 38425</u>. They seek to obtain air contaminant permit (Division identification number: <u>91-0073-01/62416</u>) for construction of a new rock crushing plant operation located at <u>1149 Ross Creek Road</u>, <u>Clifton</u>, <u>TN 38425</u>. The existing operation is the replacement of a 2004 screening plant and consists of crushing and associated equipment used to produce crushed rock. Wet suppression is used for pollution control. Regulated air contaminants are emitted by this source. Mr. Jim A. Attar is the assigned Division person.

For the Wayne County News -- published once on or before Friday, December 26, 2008.

The applicant is <u>Cooper Recycling</u>, <u>LLC dba Cooper Recycling Shredding Facility</u> with a mailing address of <u>964 Airport Road</u>, <u>Livingston</u>, <u>Tennessee 38570</u>. They seek to obtain an air contaminant permit (Division identification number: <u>67-0051-01/62424</u>) for construction of a damp shredding facility located at <u>the same address</u>. This proposed operation would consist of one (1) infeed conveyor, heavy service dual discharge

shredder, conveying and cleaning system, main drive motor, and associated equipment used to shred car bodies, miscellaneous loose appliances, #2 scrap, and light #1 scrap. Mill water injection and a cyclone would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Ms. E. Peeler is the assigned Division person.

For the Overton County News – published once on or before Friday, December 26, 2008.

The applicant is <u>James M. Taft Youth Development Center</u> with a mailing address of 900 SR 301, <u>Pikeville, TN 37367</u>. They seek to obtain an air contaminant permit (Division identification number: <u>04-0007-02/62388</u>) for construction of <u>two (2) boilers</u> located at <u>the same address</u>. This existing operation consists of two (2) identical Cleaver Brooks natural-gas fired boilers. #2 Fuel oil is used as the back-up fuel. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted by this source. Ms. E. Peeler is the assigned Division person.

For the Bledsoe County *Bledsonian-Banner* -- published once on or before Thursday, January 1, 2009.
